20. (Unclassified - WPB) LEGISLATION Talked at length to Bill Ashworth, House International Relations Committee staff, about the Derwinski amendment, especially the provisions for reporting personnel strength and verification ability. He was very appreciative of my comments and said he would pass them along to others involved in working on the amendment.

21. (Internal Use Only - CM) BRIEFING I sat in at [redacted] request on briefings of the organization of the various directives at CIA for several Senate Select Committee on Intelligence staffers: Spencer Davis, Barbara Cheshnik, Jean Evans, Don Sanders, and David Bushong. Briefers were: [redacted] Zeke Zellmer, DDS&T. The group said it would appreciate a future opportunity to be briefed on the Comptroller's office and Gene Wilson's Privacy Act work, and to tour the Operation Center.

STAT

22. (Unclassified - CM) CONSTITUENT Frank Godfrey, of the Congressional office of Representative Thomas P. O'Neill (D., Mass.), called on behalf of a constituent who had earlier asked through Mr. O'Neill's office for information on FBIS. (See Addendum to 3 May 1977 Journal.) The one-page summary sent at that time did not suffice. Godfrey said he gathered that the constituent is a short-wave radio operator who really wants some advice on how to get Uganda and other far-away countries. Godfrey accepted the suggestion that he ask for a letter from the constituent specifically stating what the constituent wants, for forwarding to us and an appropriate FBIS answer.

23. (Unclassified - CM) CONSTITUENT Kathy, of the office of Representative Richard Kelly (D., Fla.), called on behalf of a constituent who had seen a newspaper article (not further identified) indicating that CIA is recruiting soldiers to fight in Zaire; is it true? I said no. That satisfied her inquiry.

24. (Internal Use Only - LJK) LIAISON Called Bill Hogan, House Armed Services Committee staff, to request that the House Armed Services Committee serve as intermediary in passing information on contracts with E Systems Corporation to the National Security Subcommittee of House Government Operations Committee per GAO's request. Hogan agreed but cautioned that doing so may get us crosswise with Chairman Jack Brooks (D., Texas), of House Government Operations Committee. Jim McDonald, OL, is preparing information for transmittal.
